Bachelor of Technology, Dr. A. P. J. Abdul Kalam Technical University
Computer Science and Engineering

2020 - 2024

SKILLS

Technical Skills	HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, MongoDB, REST APIs, API Integration, Authentication
Programming Languages	Java, Python, C
Frameworks & Libraries	React.js, Next.js, Express.js
Styling & UI	Tailwind CSS, Bootstrap, Responsive Design
Tools & Platforms	Git, GitHub, WordPress, Shopify, PHP
Core Concepts	Full-Stack Development, Database Design, Scalable Applications

EXPERIENCE

Software Engineer (Web & Internal Systems)
GammaFlow Capital Pvt. Ltd.

Sep 2025 - Present

- Spearheaded the development of the company's end-to-end website, building a scalable and responsive platform from scratch, improving user engagement and reducing page load time by ~30%.
- Designed and managed internal systems including database structures and client onboarding workflows, streamlining onboarding processes and reducing manual effort by ~40%.
- Contributed across technical and operational functions by supporting business scaling, optimizing workflows, and helping establish the company's digital presence, increasing client reach and engagement.

Software Engineer
Capgemini

Mar 2025 - Aug 2025

- Worked on Cisco Unified Communications Manager (CUCM) project, supporting enterprise communication systems used by 500+ users, ensuring high availability and reliability.
- Assisted in troubleshooting and configuration of CUCM environments, reducing system issue resolution time by ~25% through efficient debugging and coordination.
- Collaborated with cross-functional teams to optimize system performance and maintain uptime of 99.9%, contributing to seamless communication infrastructure for clients.

PROJECTS

GammaFlow Capital Website: Developed and deployed the company website using modern web technologies; integrated real-time Nifty feed using WebSockets. ([Link to the project](#))

RedBlackNode: Founded and managing a proprietorship providing end-to-end tech solutions; developed scalable full-stack web applications, implemented automation workflows, and delivered custom software solutions tailored to client requirements. ([Link to the project](#))
